## QUILTING CLASS GUIDELINES

### Skill Level Definitions:

#### **Beginner Level:**

Entry level, does not require any prior training although it is better if you have taken our beginner table runner class to learn the basics. Classes at this level are designed to give those who have had training in the basics more practice and review of these skills.

#### **Advanced Beginner:**

A beginner level project but participants must be at the point where they are comfortable in the use of the rotary cutter and of their sewing accuracy. Participants may be asked to do the cutting prior to class and will likely have to complete part of the quilt outside class time. This class may introduce a technique that is beyond the basic quilting techniques but still at the beginner level.

#### **Advanced:**

Requires that the participants be proficient at the basic quilting skills (i.e. use of rotary cutter, straight & accurate seams, pressing without stretching, understand common quilting terms and know how to assemble common blocks such as half square triangle, pinwheel, flying geese). This class may introduce a technique that is beyond the basic quilting techniques and beyond beginner level.

### Class Guidelines:

Pre-registration is required for all classes. There are no refunds unless someone registers to take your place or for some reason the class is cancelled.

When you pay for a class, you will receive a list of the supplies you will need to bring to class. Models of class projects are on display in the shop. Don't forget, you can have a quilt you made in a Crazy to Quilt class quilted by Quilting Like Crazy at a 10% discount. There are many beautiful examples of their work throughout our shop.
